PROFILE

Final-year Computer Engineering student at Marmara University with internship experience in Go-based software development and SAP ABAP fundamentals. Interested in backend systems, database technologies, and machine learning applications. Experienced with Python, Java, Go, SQL, Git/GitHub, and JSON-based data handling.

EDUCATION

Marmara University, Faculty of Engineering | İstanbul, Turkey
Bachelor of Science in Computer Engineering | Graduation: June 2026

Relevant Coursework:

Analysis of Algorithms	Information Systems Security
Artificial Intelligence	Machine Learning
Computer Networks	Natural Language Processing
Computer Organization	Object-Oriented Software Design
Data Structures	Operating Systems
Database Systems	Software Engineering
Deep Learning	Systems Programming

TECHNICAL SKILLS

Programming Languages:	Python, Java, Go, C, Assembly, HTML/CSS
Databases & Data:	MySQL, MongoDB, SQL, JSON
Tools & Technologies:	Git, GitHub, API Testing, SAP ABAP Fundamentals, Microsoft Office
Operating Systems:	Linux (Ubuntu), Windows

PROJECTS

- Browser Fingerprint Linking System** | Graduation Project | Python, MongoDB, scikit-learn, pandas, NumPy
- Designed a two-stage framework that combines rule-based fingerprint comparison with machine learning-based interpretation.
 - Worked on attribute comparison, similarity scoring, active/outdated fingerprint classification, and JSON-based feature generation.

EXPERIENCE

- Arniva Yazılım A.Ş , Muğla - Stajyer | 22.07.2024 – 16.08.2024**
 - Developed a JSON-based farm management system using Go.
 - Gained practical experience in software development workflows, sector-specific business processes, and IT project practices.
- Improva Bilişim Hizmetleri , İstanbul – Stajyer | 28.07.2025 – 19.09.2025**
 - Gained hands-on experience with SAP ABAP fundamentals and enterprise software development concepts.
 - Worked on technical exercises and real-life problem scenarios related to SAP systems, structured programming, and debugging practices.

CERTIFICATIONS & TRAINING

API and API Testing	BTK Academy
SQL Applications	BTK Academy
Introduction to Programming with Go	BTK Academy
Algorithm Programming and Data Structures	BTK Academy

ORGANIZATIONS

Marmara Computer Science and Engineering Community (MACSEC)	2022-Present	Member
IEEE Marmara University	2023-Present	Member
Artificial Intelligence and Robotics Club	2024-Present	Member
